Dear Mr. Melbye:

Thank you for your March 26 letter regarding the uranium market and recommendation on how the Department could modify the way it manages its uranium inventories and transactions. It is always helpful to receive input from industry, as it can provide a broader perspective to the Department and validate perceived market influences.

I look forward to a continued dialogue between Uranium Producers of America and the Department. Please feel free to contact David Henderson, Director for Uranium Management and Policy, at 202-586-5338, at any time with questions or concerns.

Sincerely,
